

Milford Downtown Development Authority

During a road construction project on the main artery into town, we came up with this Brand Image to promote Downtown Milford as the "place to be."

Blessed with many quality dining establishments to choose from, it is becoming a well known destination in the Huron Valley region to meet with friends and family to enjoy great food.

Downtown Milford is surrounded by a green belt and plenty of recreational parks for outdoor family friendly activity.

We implemented a portion of a regional map provided by Oakland County to show the area amenities, in addition to the featured shops and restaurants in town.
